Optiv's Managed Security Services (MSS) provide monitoring and management for a wide variety of solutions, technologies, industries and budgets. We reduce our clients' operational friction, improve network security posture and maximize the efficiency of existing corporate resources with our 24/7/365 multi-vendor frontline technology support. Enhanced log monitoring and management accelerates time to detect and respond to threats.

### Case Study
**Private Financial Services and Insurance Company**

**Desired Outcome**
Reduce dependency on internal staff to monitor and triage security alerts 24/7.

**Scope**
Co-Managed SIEM

**Solution**
Optiv’s Co-Managed SIEM provided 24/7 monitoring, triage and escalation of critical security events. Optiv deployed standard software upgrades and patches to the security solution. We also provided initial support followed by investigation, diagnosis, resolution and closure of incidents for uses related to the health and performance of the client’s security solution.

**Benefits Recognized by Client**
- Freed up resources from L1/L2 activities to focus on critical projects
- True 24/7 coverage for all security and device alarms being monitored by Optiv
- Reduced costs by leveraging Optiv Managed Services

---

**Secure greatness™**
Optiv Security is the cyber advisory and solutions leader, delivering strategic and technical expertise to more than 7,000 companies across every major industry. We partner with organizations to advise, deploy and operate complete cybersecurity programs from strategy and managed security services to risk, integration and technology solutions. With clients at the center of our unmatched ecosystem of people, products, partners and programs, we accelerate business progress like no other company can. At Optiv, we manage cyber risk so you can secure your full potential.
