Microsoft Threat Protection Workshop

Learn how to put next generation Microsoft security tools to work for you

Optiv can help you improve your security posture with a Microsoft Threat Protection Workshop. Organizations are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Achieve your broader security objectives—and identify current and real threats—by scheduling a Microsoft Threat Protection Workshop.

We can help develop a strategic plan customized for your organization and based on the recommendations of Optiv and Microsoft cybersecurity experts. You’ll gain visibility into immediate threats across email, identity and data, plus clarity and support on how to upgrade your security posture for the long term.

**Workshop Highlights**

- Identify real threats to your cloud environment with Threat Check
- Understand your security goals and objectives
- Deliver the end-to-end Microsoft security story
- Showcase security scenarios with product demos
- Develop joint plans and next steps

**Why You Should Attend**

Given the volume and complexity of identities, data, applications, devices and infrastructure, it’s essential to learn how secure your organization is right now and how to mitigate and protect against threats moving forward.

By attending this workshop, you can:

- **Identify current, ongoing risks to your cloud environment**
- **Walk away with actionable next steps based on your specific needs and objectives**
- **Document your security strategy for the benefit of key stakeholders**
- **Better understand how to accelerate your security journey using the latest tools**

“"The Threat Protection Security Workshop helped us understand our maturity levels on different sectors of cybersecurity."”

—Harri Kivimaa, Head of End User Services, VTT
What to Expect
During this workshop, we’ll partner with you to strengthen your organization’s approach to cybersecurity.

We’ll help you better understand how to prioritize and mitigate potential attacks, with:

- Deep analysis from Threat Check of cyberattack threats found targeting your organization
- Actionable recommendations to help immediately mitigate the identified threats
- A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity pros
- An inside look at Microsoft’s holistic approach to security, and how it relates to your organization
- Demonstrations of integrated security, including the latest tools and methods
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps

Together for Stronger Security

Optiv + Microsoft
Optiv helps accelerate adoption to maximize your Microsoft investment. We secure your organization and reduce complexities by integrating built-in security solutions from Microsoft to manage and secure identities, protect your data, safeguard your cloud applications and stop threats. We have designed solutions specifically for Microsoft that are focused on business outcomes and creating clarity from cybersecurity complexity and chaos.
